

July 6, 1983 - p. 2

be able to stay on the bores and not rest. Cost: \$3.50 each.

3 - Tomaine and I explained about the Hendrick Show of photographs that we would like to have in 301 this summer. And think about it now, I wonder if perhaps it might not be better to have the Hendrick show in September. That way we could concentrate on the "Made in Carbondale" show.

4 - We discussed the "copy" for the Historical Society's ad in the 5th Annual Pioneer Days Booklet.

5 - We looked at 150 of the color slides that Bob Tomaine made of post cards in my possession at the present time (post cards owned by DWP and me and also some ^{owned} by Skip Race). They are dazzling. We shall be able to put together a great number of slide shows from our ever growing collection (700-800 post cards/slides).

At the conclusion of the meeting, John Klemkewicz and Tomaine and I went down to Mister Donut and "plotted and schemed." When it came time to leave, I asked Tomaine if he would give John a ride to Simpson. He did - I rode along. John lives on Jefferson Street and I would bet that it is a good 45 minute - walk from his house to City Hall. That's the kind of dedication that I admire. John K. is presently sorting out and drying out about 80 pounds of death certificates (hundreds, perhaps thousands of them) that we located in the basement of City Hall. It's nice to have an "active" member like John K.
